COMPANY OVERVIEW

EA Tech Solutions LLC is a Maryland-based, veteran-owned small business delivering cybersecurity, network infrastructure, systems engineering, and technology modernization for government and commercial organizations. We combine engineering discipline with a threat-informed risk perspective to produce secure, supportable outcomes.

CORE CAPABILITIES

- **Cybersecurity & Risk Engineering**
Security architecture, assessments, hardening, compliance support, incident readiness, and ICS/SCADA considerations.
- **Network & Infrastructure**
Secure LAN/WAN and wireless design, firewalls, segmentation, monitoring, endpoint integration, and deployment.
- **Systems Engineering & Integration**
Requirements, interfaces, integration, test planning, technical documentation, change control, and sustainment.
- **Technology Modernization**
Microsoft 365, endpoint refresh, collaboration systems, cloud-readiness, audiovisual integration, and roadmaps.

REPRESENTATIVE SOLUTION

Secure Office Modernization - Laurel, Maryland

A 6-8 week delivery model for a growing office: secure perimeter, managed switching, enterprise wireless, 5-10 workstations, Microsoft 365, endpoint protection, printing, and integrated video collaboration.
